

THE CHRONICLE.

BODIE, MARCH 26, 1880.

SAN FRANCISCO AGENCY.—L. P. Fisher, 21 Montgomery Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

NEWS OF THE MORNING.

A fire occurred on the ranch of Railroad Commissioner Cone near Red Bluff, on Tuesday night, by which Christopher Smith was burned to death and several others severely burned.

Russia wants Japan to assist in its war with China.

The Louisville Post says that Seymour does not want the nomination of the Democrats for President, but will accept it if tendered.

Gen. Grant made a happy speech last night at Galveston.

OUR TOWN.

From clippings in outside papers, distant readers are given a bad opinion of Bodie and Bodie society, and it is not to be wondered at that families are loth to go to a town about which there is so much "bad" and so little "good" said about it. If any civil matter occurs here, some of our papers make a mountain out of it, and falsely embellish it in an effort to "ape" the *San Francisco Press*, and poor attempts they make, and they go to the world, as a fair specimen of life in Bodie; and the outside press, eager for an item from Bodie, and in want of "copy," "scissors" it and it is re-published and sent broadcast through the land, with editorial comments, which are always "forbidden" Bodie. That these publications have prevented families coming here, cannot be denied, for we know that such has been and will be the result of such a system of journalism that is considered "smart" in this town. It was our own papers that gave the world to understand that we had no church here, merely because we had no church edifice, whereas we have had religious services every Sabbath for nearly, if not quite, two years. Probably nothing has injured the place more than the exaggerated accounts in our own papers of the pneumonia sickness here last fall. It is true it may not have prevented the male pursuance from coming to Bodie, but it has kept away the better class of female element, of which we have none so much; and to this day the dread of pneumonia is keeping families from coming to Bodie.

Our town is as healthy to-day as any place in this State or Nevada, and probably more so; and there is no more quiet place, of its size, than this town. We have a corps of efficient officers to look after our police affairs and justices who enforce our laws to the satisfaction of the people. We have a good supply of water for fire purposes, and it may be for household use; our social system is as good as that of any mining camp on the coast, and there is no reason why those intending to come to Bodie to settle should not bring their wives and families with them.

CONGRESSIONAL.—The following bills have been introduced in the House:

By Briggs—Introducing a bill restoring to the public domain lands included in Fort Reeling and Fort Cook military reservations in California.

By Phelps—Introducing a bill providing for the passage of Irish emigrants on the return voyage of the ship *Constellation*, now about to start with provisions for famine sufferers.

By Gibson—Reducing the whisky tax fifty cents per proof gallon and to abolish bank taxes.

By Briggs—Imposing a higher duty on opium, morphine, and their salts, and on amorphous opium.

By Kelly—Taxing sulphate of quinine ten per cent.

By Seales—Providing that mineral lands of the United States shall be surveyed, appraised and sold at their full value, and all proceeds thereof, after payment of necessary expenses, shall be applied to the public debt.

GOVERNMENT INVESTMENT.—The Senate passed to second reading and engrossment the bill providing a means for counties to fund and refund indebtedness. It allows supervisors by a two third majority vote to issue bonds not less than \$100 nor more than \$1,000, at seven per cent interest, to run not exceeding 20 years, with provisions for redemption fund. There is attached to the bill a new feature in California legislation. This is a section intended to prevent counties from repudiating debts, and provides that where counties fail to pay interest on principal, the State Comptroller shall issue warrants for the same and State Board of Equalization is authorized to collect from the counties.

The U. S. Supreme Court, in the case of an insurance policy, decided that the insured who erroneously stated that there was no taint of hereditary disease in his family, did not thereby invalidate his policy, because it is not proven that he knew of the existence of such hereditary taint, and because his answers were restricted to what he himself knew of the matter.

The Rhode Island Democratic State Convention made the following nominations for Governor, Horace M. Kimball; Lieutenant Governor, Stephen P. Slocum. Cincinnati were instructed for Tilden.

On Monday nearly 3,000 immigrants arrived in New York and the day before from European steamers. The total arrivals for the month thus far is 12,723, against 6,014 for the entire month last year.

Telegraphic.

COAST.

Fire and Loss of Life.
Red Bluff, March 25.—A two story employes boarding house on the ranch of J. S. Cone, four miles east of town was burned last night, and Christopher Smith perished in the flames. All the inmates were more or less burned, but not seriously.

Assembly.
SACRAMENTO, March 25.—Cameron moved to re-consider the vote by which his bill exempting as vine banks deposits from taxation, was defeated yesterday. Lost.

Endorsed.
SAN FRANCISCO, March 24.—The Republican County Committee this evening endorsed free holders ticket put up by the Citizens Union.

No Stock To-day.
SAN FRANCISCO, March 24.—To-morrow being Good Friday, the Stock Board have adjourned over.

EASTERN.
For Grant.
LOUISVILLE, March 25.—The Republicans have held conventions in 55 counties of this State, of which 30 have instructed for Grant, 3 for Sherman, and 1 for Blaine. Where no instructions have been given Grant delegates to the State Convention have generally been appointed.

For Seymour.
The Root produces letters and dispatches from Syracuse to back its dispatches of interview with Seymour, and again states the situation as follows: Governor Seymour's present position on the Presidential question may be stated in the brief terms with which we have been accustomed to refer to it. He is not a candidate, and does not want the nomination, but if the latter be given to him he will not refuse it. Nothing can be plainer than this, and it is all we have ever asserted in the premises, it being then a question of whether the Democrats shall nominate as their candidate a man whose nomination means his election, or some one else upon whom great hope may be placed, but about whose ultimate success there exists very natural doubts. We see no excuse for hesitating as to the course to be pursued. Horatio Seymour is the one man to head the Democratic ticket.

Chinese East.
NEW YORK, March 24.—The Commercial Bulletin to-day says: "Our San Francisco contemporaries derive some comfort from the midst of the trouble that beset them from the expectation that the Chinese—whom the hoodlum's constitution has driven Eastward would speedily create trouble, especially in New York and other large cities whose laboring classes will have to contend with Asiatic cheap labor. We doubt whether the expectation will be realized. New York is so cosmopolitan a community that it really absorbs the most diverse races without social, commercial or political disturbances. We get along very well with the Teuton, Celt, Scandinavian, Muscovite, Greek, African, etc., and if the mongolian is now to be thrown in we do not anticipate a convulsion of any kind. It is the persecution of one race by another that is at the bottom of the California trouble, but as no such persecution is possible under the existing condition of civilization in New York a repetition of these troubles here is out of the question."

Lapsed Railroad Grants.
WASHINGTON, March 24.—Senators Davis Garland and Carpenter, the subcommittee of the Judiciary Committee, to consider the joint resolution introduced by Morgan, and various similar measures looking to the forfeiture of lapsed railroad grants, submitted report to the full Committee to-day recommending the passage of the bill which shall provide authority for the Attorney General to bring suits for the forfeiture of the land grants of all railroad companies which have not complied with the requirements of their charters, and which are doing nothing in the line of construction; also a provision exempting from the operations of the bill all such railroad companies as are now prosecuting the construction of their roads. The full committee discussed the report, but took no action to-day.

Congressional.
WASHINGTON, March 24.—Yesterday Representative Page made an argument before the House Mining Committee in opposition to any change in the present law authorizing ledge locations so far as California is concerned.

In the Senate, yesterday, Edmunds presented a memorial, largely signed by male and female residents of Washington, asking the enactment of a law for the punishment, by castration, of the crime of rape.

Assassinated.
WENSBORO, Texas, March 24.—Dr. H. W. Harrington was called out last night to attend to a patient, and assassinated near his own door.

Grant at Galveston.
GALVESTON, March 24.—Gen. Grant, at last night's banquet, in answering a flattering toast to himself, thanked the city for his cordial reception, and referred to his visit here as a Lieutenant more than one-third of a century ago. He complimented the State on its vast domain; wished, for the people of Texas and the entire South that they might go on developing their resources and in their prosperity forget that there is a boundary between the North and the South (prolonged cheers). I am sure said the ex-President, that we will all be happier and much more prosperous when the day comes that there will be no sectional feeling. Let any American who can travel abroad, as I have done, and with the opportunity of witnessing what there is to be seen that I have had and he will return to America a better American and a better citizen than he was when he went away. (Loud cheers.) He will return more in love with his country. Far be it from me to find fault with any European government. I was well received at their hands on every

side by every nation in Europe, but with their dense population and worn soil, it takes a great deal of government to enable the people to get from the soil bare subsistence. Here we have rich virgin soil, with room enough for all of us to expand and live with the use of very little government. I do hope that we long may be able to get along happily and contentedly without being too much governed.

FOREIGN.

Russia and China.
LONDON, March 24.—Vienna dispatches announce that Russia is seeking an alliance with Japan against the Chinese. Hung Chung, the Tsin Viceroy, has received \$200,000 from the Peking Government to purchase eight gunboats in England or the United States to defend the coast against the possible attacks of Russia. In the meanwhile, Russia is organizing various tribes in the vicinity of Kuldja for the defence of that position against the Chinese.

A dispatch from St Petersburg says the Czar has sent costly presents and an autograph letter to the Emir of Bokhara, thanking him for his offer to co-operate with General Kaufman in the event of the Chinese invading Kuldja.

The departure of General Skobeloff, Commander of the Russian expedition against the Tucomans, has been postponed until Friday next General Skobeloff, does not undertake the Tucomans. He is largely provided with artillery, having deemed it necessary to have more than double the usual proportion. It is believed that no newspaper correspondent will be allowed to accompany him. The press has been officially notified to refrain from publishing anything referring to the expedition. The Emperor has presented Prince Alexander of Bulgaria, a war steamer, 40,000 rifles and several Krupp guns.
